TO WHOM IT MAY CONCERN

Dear Sir/Madam,

RE: RECOMMENDATION FOR THE YOUNG INNOCENT SOULS OF GOD SCHOOL PROJECT

I write to confirm that the Young Innocent Souls of God (YISOG) is a recognized organization that operates within my area of jurisdiction. The organization is registered under the social services department and has been instrumental in supporting vulnerable children in the area.

YISOG provides a lifeline for children affected by harmful cultural practices such as forced child marriage, neglect and gender-based violence. The organization also supports children living with disabilities, orphans and those from extremely poor backgrounds.

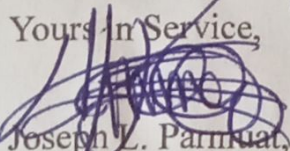

YISOG organization owns a rescue center facility where the disadvantaged children have access to a safe and clean shelter and are provided with basic needs, educational support, mentorship and psychosocial support services. It also operates in conformity with the national child protection guidelines and has the best interest of the child as outlined in the Children Act, 2022.

My office is cognizant of YISOG's vision to establish a school within its premises, an idea that is welcome bearing in mind the shortage of schools in the area and that their children walk very long distances and bushy stretches to get to school. Sometimes the children risk being attacked by wild animals roaming the area every other day.

In my view of the above, I strongly encourage the interested parties to support YISOG in this worthy cause. The school will promote access to educational opportunity not only for the children at the orphanage but also for the entire Impiron community.

In case of any further information please do not hesitate to contact my office.

Yours in Service,

  
Joseph L. Pamuat,  
Area Chief,  
Kimana Location.

TO WHOM IT MAY CONCERN

Dear Sir/Madam,

RE: RECOMMENDATION FOR YOUNG INNOCENT SOULS OF GOD SCHOOL PROJECT

I am honored to write in recognition of Young Innocent Souls of God (YISOG), a nonprofit organization.

YISOG has been significant in supporting the vulnerable children from poor families including the disabled and orphans thus promoting peace, restoring hope and dignity. It has also demonstrated unmatched commitment and passion in uplifting standards of living for the marginalized groups, advocating for social justice and improving mental wellbeing of the community by providing educational opportunities for children rescued from forced child marriage, FGM and those neglected due to effects of climate change. In addition, the organization provides health care and psychosocial support services to children under their care especially in the rescue center.

My office is aware of YISOG's vision to construct classrooms in its endeavor to establish a modern school facility to serve the children in the rescue center and those from the neighboring community. An idea that can be regarded as timely, impactful and necessary due to the fact that the area has an acute shortage of schools forcing children to walk long distances to get to school. The area also happens to be a wildlife corridor making it risky and dangerous as wild animals could attack young children on their way to school. Their efforts align with the community's need particularly in fostering much needed societal growth.

I am confident of their ability to manage and maintain high standards and quality of education as demonstrated by their professionalism and excellence as seen in their day-to-day operations. I hereby highly recommend and unequivocally encourage any well-wishers, donor or interested partners to accord them the necessary assistance to make their dream come true.

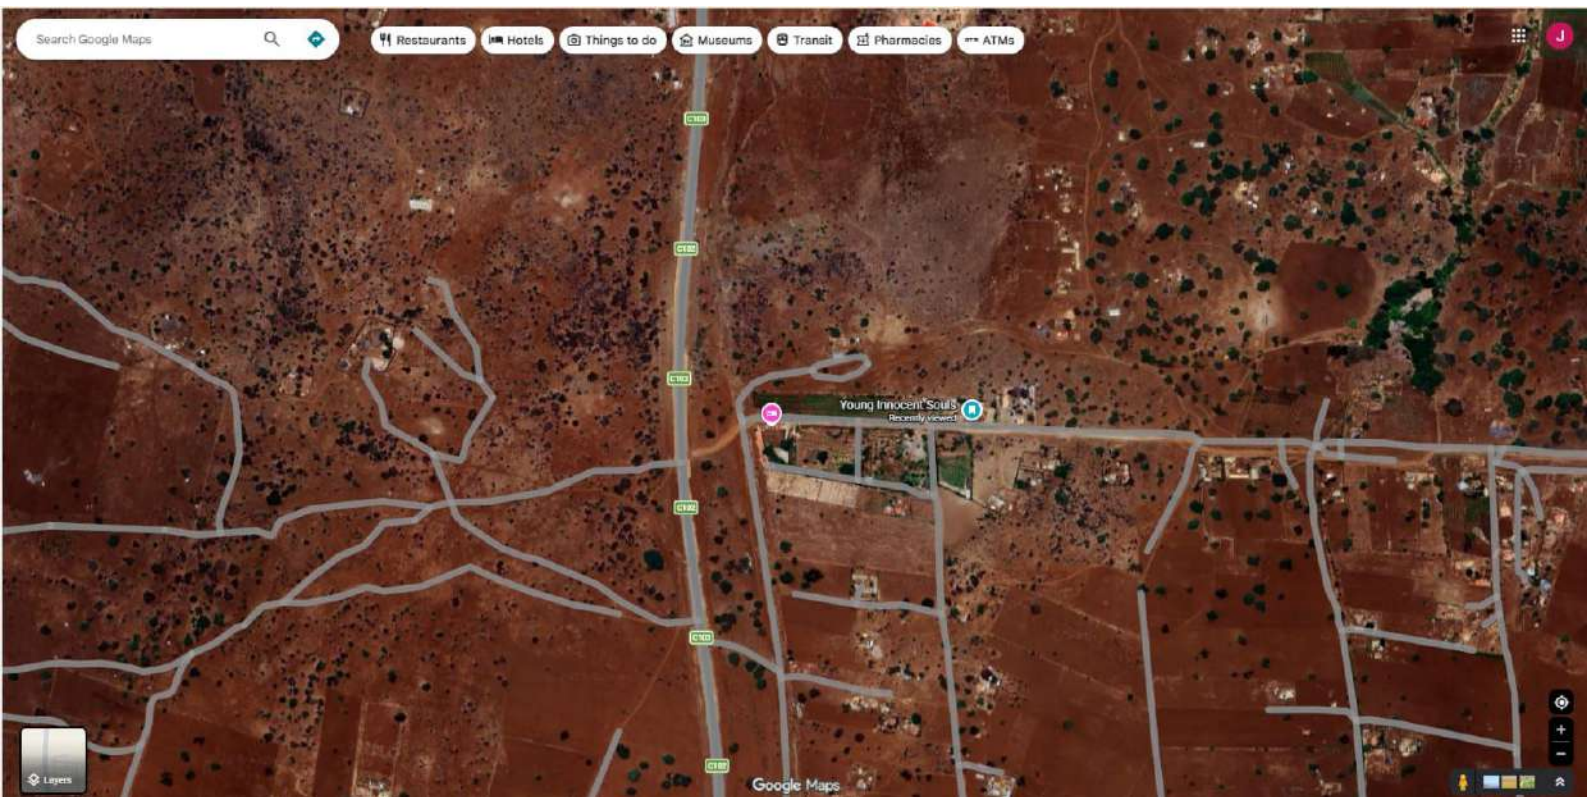

Yours Sincerely,

SUB-COUNTY  
DIRECTOR OF EDUCATION

Foundation notes: 150mm RC slab  
with ceramic tiles finish on 1000  
gauge dpm waterproofing on 50mm  
blinding on rock to specification. (depth of  
excavation to S.E.'s approval) Antitermite  
treatment to S.E.'s approval

THE GROUND FLOOR PLAN  
&  
TYPICAL FIRST AND SECOND FLOOR

**NOTES**  
All dimensions are shown in millimeters unless otherwise specified. Drawings are not to be scaled only figured dimensions to be used. The contractor must check and verify all dimensions on site before commencement of any work.

**CONSTRUCTION CIVIL NOTES**  
All slabs at ground level to be poured over 1000 gauge polythene sheeting on 20mm dense dustless hardcore. All soil under slabs and all around external foundations to be pouceered for termite control. All soils on cut embankment to be stabilized. The slope not to exceed the natural angle of repose.

**STRUCTURAL**  
All black cotton soils to be removed from below all buildings and paved surfaces. Buildings to be clear of black cotton soil to a distance of 3m outside the perimeter. All paved surfaces to be clear of black cotton soil to a distance of 300mm outside the edge surface. For all R.C. work refer to structural engineer's detail. Depth of the foundation to be determined on site to structural Engineer's approval. All walls less than 200mm thick to be reinforced with hoop iron at every alternate course. All adjacent R.C. work and masonry walls to be tied with strap irons at every course.

**MECHANICAL**  
All plumbing and drainage to comply with city council specifications. All service ducts to be accessible from all floors. SVP denotes soil vent pipe to be provided at the head of the drainage drains passing beneath buildings and driveways to be encased in 150mm concrete surround. No chases will be allowed in the slabs for the pipes. Stoves will be allowed with written approval of the S.E. No cutting of concrete without the express approval of the architect or S.E. All testing of pipes must be completed before plastering. All mechanical work must be coordinated with electrical and any conflicts must be clarified before work begins. P.V denotes permanent ventilations.

**ELECTRICAL**  
All conduits must be laid before plastering.
